December 9, 2020
January 6, 2021
February 3, 2021
March 17, 2021
April 7, 2021

Preschool Child Check:

Child check is a developmental screening for children ages 3-5 and provides information about a child's current development in the areas of motor, language, concept, self-help, and social-emotional development. Informal vision and hearing screenings are also conducted as part of the screening. The screenings are held on the dates listed above and conducted by our team of special needs preschool staff. The screenings last *approximately 90 minutes* and requires a parent to be present.

Child check is offered by Marion City Schools as a resource to parents to help identify any developmental concerns that may exist for a child. Screening results are mailed to parents and parents are contact if screening results suggest any possible concerns.

Children may participate in the screening if they are turning 3 years of age within 45 days of the screening date. You must also be a resident of the Marion City School district to participate in the screening.

***Schedule an appointment by calling Marion City Preschool office at (740)-223-4425**
